

## Statement of addition of dissertation to Library collection and to TU/e Repository

The doctoral graduate shall supply to the Information Expertise Center:

1. the digital version of the dissertation in pdf format via [IEC.digitaal@tue.nl](mailto:IEC.digitaal@tue.nl)
2. the signed declaration form via [IEC.digitaal@tue.nl](mailto:IEC.digitaal@tue.nl), or when delivering the printed copies, giving permission to make the dissertation publicly available to third parties via loan from the printed library collection and digitally via the TU/e Repository. Exceptions may be made with permission from the dean. The doctoral graduate retains copyright.
3. 2 printed copies of the dissertation. If the dissertation appears exclusively as a commercial edition 3 copies are to be supplied.

### Dissertations in printed library collection and open access via TU/e Repository

All dissertations are added to the printed library collection as standard procedure, and are for loan to third parties. Also as standard procedure, open access to digital versions is offered via the TU/e repository (<http://repository.tue.nl/>). If this standard procedure is to be deviated from, the doctoral graduate will require prior permission from the dean of his/her department. Such exceptions must be communicated to the Information Expertise Center on delivery of the dissertation, by way of a signed statement.

### Statement of addition of dissertation to library collection and to TU/e Repository

Standard approval for:

- Placement of printed copy in library collection, available for loan
- Placement of digital version in TU/e Repository, offering open access to its content

Exemption for embargo with permission from dean, see next page

Date of graduation: 02/06/2016

Title of dissertation: Daily-life training and monitoring methodologies for Chronic Obstructive Pulmonary Disease patients  
ISBN: 978-90-386-4072-3

Name of graduate: GABRIELE SPINA
